SUPPLEMENTAL PROPOSED AMENDMENT TO THE DRAWINGS

Assistant Commissioner  
for Patents  
Washington, D.C. 20231

June 7, 2002

Sir:

Further to the proposed Amendment to the Drawings filed on December 10, 2001, applicants request the further amendments shown on the attached marked copy of Fig. 13. This request is submitted to correspond Fig. 13 to the description found in the original Specification on page 34, lines 1-4 (and in the Substitute Specification on page 26, lines 2-6). As stated there, the data line 114 is made up of two lines, one of which is connected to a  $V_{ss}$  reset switch 117. However, original Fig. 13 did not show the switch 117 or the  $V_{ss}$  set to 0 volts. Instead, Fig. 13 showed the  $V_{dd}$  reset switch 118 coupled to  $V_{dd}$  set to 5 volts twice. Accordingly, the attached Fig. 13 corrects this error by showing by the reset switch 117 and  $V_{ss}$  set to 0 volts, corresponding to the description found in the specification.

elt

Upon receipt of the approval of the amendments to the drawing, the drawing amendments will be effected.

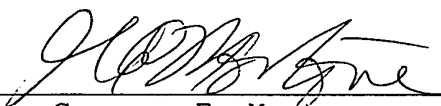

If the Examiner believes that there are any other points which may be clarified or otherwise disposed of, either by telephone discussion or by personal interview, the Examiner is invited to contact applicants' undersigned attorney at the number indicated below.

To the extent necessary, the applicants petition for an extension of time under 37 CFR 1.136. Please charge any shortage in the fees due in connection with the filing of this paper, including extension of time fees, to the deposit account of Antonelli, Terry, Stout & Kraus, Deposit Account No. 01-2135 (503.40291X00).

Respectfully submitted,

ANTONELLI, TERRY, STOUT & KRAUS, LLP
